

How to mount center spotlight fastener (cross)

1. Mount the fastener standing in front of the fully erected Expand 2000.
2. Locate the center of the crossbars and slide the fastener into place from either side of the center, as illustrated.
3. You can now mount the light fixture foot onto the fastener by sliding the foot from one side to the other -grabbing the tracks on the topside of the fastener.

Foldable magnetic bar

How to mount The foldable magnetic bar

- 1 Unfold the bar.
- 2 Slide the A or D end of the bar onto the lower stud.
- 3 .. and then slide the other end onto the upper stud.
